

## What to do on leaving Salamanca?

A couple of days before leaving Salamanca you have to come to our International Relations Service to receive a certificate that states you have been an ERASMUS/exchange student at our university.

You also have to talk with your academic coordinator in order to agree how to receive your marks. Normally the co-ordinator will send your transcript of records by mail to the Erasmus/exchange co-ordinator of your home institution.

Your home university will establish the equivalents and the corresponding validations in accordance with the initial learning agreement.
